From where I sit ... by Joe Ma

Will's Hospitality Isn't "Cracked"!

Ever since January, Will Dudley planned to give his living room that "new look"—planned to carefully refinish the woodwork and replaster the walls.

Every time Will got out the putty to start filling in the cracks, a neighbor stopped by to pass the time of day—and first thing you knew, there was a group of us helping Will do the job up right. After Will called a halt to the evening's work, we'd sit around the fire enjoying a friendly argument and a sparkling glass of mellow beer.

So Will's living room didn't look like it did a year ago—by far the most "livable" room I know: A place I always drop in for good fellowship, beer, and a warm welcome.

From where I sit, so long as there's good fellowship and good friendship in the world, the living room any time he wants.

HAROLD'S ESSO SERVICE

HE'S NOT ON OUR PAYROLL...

but we couldn't do business without him!

When you take your car to an Esso Dealer Station for gasoline, motor oil, or a complete lubrication job—you're not really "doing business" directly with Esso Standard Oil Company, even though we make the fine products you get.

Instead, these 25,000 Esso Dealers from Maine to Louisiana are local, independent business men. You deal with the owners themselves—men who have invested *their* money and *their* initiative in building their own futures on serving you.

From many competing brands of gasoline and oil, these local business men have chosen Esso products. Year after year, they have seen first-hand evidence of the satisfaction to the buyer that Esso quality stands for.

As of today, these able business men have, on the average, handled Esso products for 12 years each.

Many have bought from us for 35 to 40 years.

Obviously, we couldn't do business without these men. And naturally we're proud of them—just as proud of them as we are of the 25,000 workers who *are* on our company payroll.

Both groups—our own employees and these "partners" in their independent businesses—express this company's basic belief that individual enterprise, given its fair chance to earn fair rewards—is the best way and the American way to make progress with and for all the people of this country.
